SUBJECT INDEX

Accelerators (Particles)
Survey and Alignment of Particle Accelerators and Transport Lines, Robert E. Ruland, SU Feb. 94, p11-24.

Accuracy
Using GPS to Improve Existing Classical Network, Szu-Pyng Kao and J. S. Bethel, SU May 94, p77-91.

Alignment
Survey and Alignment of Particle Accelerators and Transport Lines, Robert E. Ruland, SU Feb. 94, p11-24.

Antennas
Determination of Look Angles to Geostationary Communication Satellites, Tomás Soler and David W. Eisemann, SU Aug. 94, p115-127.

Azimuth
Determination of Look Angles to Geostationary Communication Satellites, Tomás Soler and David W. Eisemann, SU Aug. 94, p115-127.

Cadastral surveys
Creation of Land Information System for Milwaukee County, Wisconsin, Kurt W. Bauer, SU Nov. 94, p156-165.

Connections
Band Width in Joint Adjustment of Geodetic Networks Having Common Points, Olcay Öztan, Yunus Kalkan, Zafer Kızılsu and Ufuk Özerman, SU Feb. 94, p3-10.

Construction control
Quality in Constructed Project: Surveying Engineering, Gunther Greulich, Wayne H. Valentine and R. R. Chamard, SU May 94, p52-61.

Control surveys
Creation of Land Information System for Milwaukee County, Wisconsin, Kurt W. Bauer, SU Nov. 94, p156-165.

Modeling of GPS Systematic Errors in Monitoring and Control Surveys, Adam Chrzanowski and Yong-qi Chen, SU Nov. 94, p145-155.

Quality in Constructed Project: Surveying Engineering, Gunther Greulich, Wayne H. Valentine and R. R. Chamard, SU May 94, p52-61.

Coordination
Survey and Alignment of Particle Accelerators and Transport Lines, Robert E. Ruland, SU Feb. 94, p11-24.

Cross sections
Finite-Element Volumes, Thomas G. Davis, SU Aug. 94, p94-114.

Curvature
Finite-Element Volumes, Thomas G. Davis, SU Aug. 94, p94-114.

Simple Numerical Method for Solving Horizontal Circular Curves, Said M. Easa, SU Feb. 94, p44-48.

Dimensions
Range Determination Using Target Images, Fouad A. Ahmed, SU Nov. 94, p135-144.

Distance measuring
Survey Distance Units: A Better Way, Larry E. Stanfel, SU Aug. 94, p130-132.

Using GPS to Improve Existing Classical Network, Szu-Pyng Kao and J. S. Bethel, SU May 94, p77-91.

Documentation
Quality in Constructed Project: Surveying Engineering, Gunther Greulich, Wayne H. Valentine and R. R. Chamard, SU May 94, p52-61.

Error analysis
Modeling of GPS Systematic Errors in Monitoring and Control Surveys, Adam Chrzanowski and Yong-qi Chen, SU Nov. 94, p145-155.

Finite elements
Finite-Element Volumes, Thomas G. Davis, SU Aug. 94, p94-114.

Geodesy
Determination of Look Angles to Geostationary Communication Satellites, Tomás Soler and David W. Eisemann, SU Aug. 94, p115-127.

Geodetic surveys
Band Width in Joint Adjustment of Geodetic Networks Having Common Points, Olcay Öztan, Yunus Kalkan, Zafer Kızılsu and Ufuk Özerman, SU Feb. 94, p3-10.

Geographic information systems
Creation of Land Information System for Milwaukee County, Wisconsin, Kurt W. Bauer, SU Nov. 94, p156-165.

Developing a National Spatial Data Infrastructure, John McLaughlin and Sue Nichols, SU May 94, p62-76.

Geoid
Using GPS to Improve Existing Classical Network, Szu-Pyng Kao and J. S. Bethel, SU May 94, p77-91.

Geometry
Simple Numerical Method for Solving Horizontal Circular Curves, Said M. Easa, SU Feb. 94, p44-48.

Global positioning
Modeling of GPS Systematic Errors in Monitoring and Control Surveys, Adam Chrzanowski and Yong-qi Chen, SU Nov. 94, p145-155.

Quality Control with Reliability for Large GPS Networks, Alfred Leick and Michael B. Emmons, SU Feb. 94, p25-41.

Using GPS to Improve Existing Classical Network, Szu-Pyng Kao and J. S. Bethel, SU May 94, p77-91.

Image analysis
Range Determination Using Target Images, Fouad A. Ahmed, SU Nov. 94, p135-144.

Images
Range Determination Using Target Images, Fouad A. Ahmed, SU Nov. 94, p135-144.

Information system design
Creation of Land Information System for Milwaukee County, Wisconsin, Kurt W. Bauer, SU Nov. 94, p156-165.

Infrastructure
Developing a National Spatial Data Infrastructure, John McLaughlin and Sue Nichols, SU May 94, p62-76.

Iteration
Simple Numerical Method for Solving Horizontal Circular Curves, Said M. Easa, SU Feb. 94, p44-48.

Land information systems
Creation of Land Information System for Milwaukee County, Wisconsin, Kurt W. Bauer, SU Nov. 94, p156-165.

Land surveys
Survey Distance Units: A Better Way, Larry E. Stanfel, SU Aug. 94, p130-132.

Mapping
Range Determination Using Target Images, Fouad A. Ahmed, SU Nov. 94, p135-144.

Measurement
Survey Distance Units: A Better Way, Larry E. Stanfel, SU Aug. 94, p130-132.

Modeling
Band Width in Joint Adjustment of Geodetic Networks Having Common Points, Olcay Oztan, Yunus Kalkan, Zafer Kızılsu and Ufuk Ozerman, SU Feb. 94, p3-10.

Modeling of GPS Systematic Errors in Monitoring and Control Surveys, Adam Chrzanowski and Yong-qi Chen, SU Nov. 94, p145-155.

Monitoring
Modeling of GPS Systematic Errors in Monitoring and Control Surveys, Adam Chrzanowski and Yong-qi Chen, SU Nov. 94, p145-155.

Networks
Band Width in Joint Adjustment of Geodetic Networks Having Common Points, Olcay Oztan, Yunus Kalkan, Zafer Kızılsu and Ufuk Ozerman, SU Feb. 94, p3-10.

Developing a National Spatial Data Infrastructure, John McLaughlin and Sue Nichols, SU May 94, p62-76.

Quality Control with Reliability for Large GPS Networks, Alfred Leick and Michael B. Emmons, SU Feb. 94, p25-41.

Using GPS to Improve Existing Classical Network, Szu-Pyng Kao and J. S. Bethel, SU May 94, p77-91.

Numerical analysis
Simple Numerical Method for Solving Horizontal Circular Curves, Said M. Easa, SU Feb. 94, p44-48.

Positioning
Survey and Alignment of Particle Accelerators and Transport Lines, Robert E. Ruland, SU Feb. 94, p11-24.

Quality assurance
Quality in Constructed Project: Surveying Engineering, Gunther Greulich, Wayne H. Valentine and R. R. Chamard, SU May 94, p52-61.

Quality control
Quality Control with Reliability for Large GPS Networks, Alfred Leick and Michael B. Emmons, SU Feb. 94, p25-41.

Reliability
Quality Control with Reliability for Large GPS Networks, Alfred Leick and Michael B. Emmons, SU Feb. 94, p25-41.

Satellite communications
Determination of Look Angles to Geostationary Communication Satellites, Tomás Soler and David W. Eisemann, SU Aug. 94, p115-127.

Satellites
Determination of Look Angles to Geostationary Communication Satellites, Tomás Soler and David W. Eisemann, SU Aug. 94, p115-127.

Spatial analysis
Determination of Look Angles to Geostationary Communication Satellites, Tomás Soler and David W. Eisemann, SU Aug. 94, p115-127.

Spatial data
Developing a National Spatial Data Infrastructure, John McLaughlin and Sue Nichols, SU May 94, p62-76.

Surveying
Quality in Constructed Project: Surveying Engineering, Gunther Greulich, Wayne H. Valentine and R. R. Chamard, SU May 94, p52-61.

Range Determination Using Target Images, Fouad A. Ahmed, SU Nov. 94, p135-144.

Survey Distance Units: A Better Way, Larry E. Stanfel, SU Aug. 94, p130-132.

Surveys
Survey and Alignment of Particle Accelerators and Transport Lines, Robert E. Ruland, SU Feb. 94, p11-24.

Telecommunication
Developing a National Spatial Data Infrastructure, John McLaughlin and Sue Nichols, SU May 94, p62-76.

Topographic mapping
Creation of Land Information System for Milwaukee County, Wisconsin, Kurt W. Bauer, SU Nov. 94, p156-165.

Vector analysis
Quality Control with Reliability for Large GPS Networks, Alfred Leick and Michael B. Emmons, SU Feb. 94, p25-41.

Volume measure
Finite-Element Volumes, Thomas G. Davis, SU Aug. 94, p94-114.

AUTHOR INDEX

Ahmed, Fouad A.
Range Determination Using Target Images, SU Nov. 94, p135-144

Bauer, Kurt W.
Creation of Land Information System for Milwaukee County, Wisconsin, SU Nov. 94, p156-165

Bethel, J. S.
see Kao, Szu-Pyng, SU May 94, p77-91

Chamard, R. R.
see Greulich, Gunther, SU May 94, p52-61

Chen, Yong-qi
see Chrzanowski, Adam, SU Nov. 94, p145-155

Chrzanowski, Adam
Modeling of GPS Systematic Errors in Monitoring and Control Surveys, with Yong-qi Chen, SU Nov. 94, p145-155

Davis, Thomas G.
Finite-Element Volumes, SU Aug. 94, p94-114

Easa, Said M.
Simple Numerical Method for Solving Horizontal Circular Curves, SU Feb. 94, p44-48

Eisemann, David W.
